Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories.

Copying: using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This also applies to music, art and design projects, as well as presentations where someone presents another's ideas or words without credit.

Inappropriate paraphrasing: Changing a few words and phrases while mostly retaining the original structure and/or progression of ideas of the original, and information without acknowledgement. This also applies in presentations where someone paraphrases another's ideas or words without credit, and to piecing together quotes and paraphrases into a new whole, without appropriately referencing.

Collusion: working with others to pass off the work as a person's individual work. Collusion also includes providing your work to another student before the due date, or for the purpose of them
