

Terminology	Definition
Program compulsory core course and Introductory Business core course	Students must complete ECON1401 as the compulsory core course and choose another 6UOC of Introductory Business core course.
Economics Major	Students must complete at least one major in Economics, Econometrics or Financial Economics consisting of 60UOC. The 60UOC includes 36UOC from the compulsory first and second year core courses. (The Introductory Business Core course and ECON1401 do not count towards an Economics major.) Students must complete at least three (3) level 3 courses (numbered 3XXX).
Economics Elective	Account for 12-24UOC (2-4 courses) from the School of Economics to ensure a student completes a minimum of 78UOC of Economics courses within the School of Economics (including Introductory Business core course).
Business School Electives	Account for 12UOC (2 courses). Students are free to use these UOC to complete courses from within the Business School, however, they need to be mindful of the program limit on Level 1 courses (60UOC) when making their selection.

Table A. Economics major: _____; **Science major:** _____

Compulsory core course		Introductory Business Core course (choose <u>ONE</u> from the following list)		Economics major		Economics electives (courses offered by the School of Economics)		Business School electives (courses offered by Business School)	
(6UOC)	Term	(6UOC)	Term	(60UOC)	Term	(12UOC)	Term	(12UOC)	Term
ECON1401		ACCT1501		ECON1101		1.		1.	
		FINS1613		ECON1102		2.		2.	
		INFS1602		ECON1202*					

Students should do the MATH courses which are required in the Science specialisations they choose – for example, the mathematics and statistics specialisations specify MATH1131/MATH1231 or MATH1141/MATH1241 rather than MATH1031/MATH1041. With a few of the Science specialisations only one MATH course is required, in which case students will be required to complete one of either ECON1202 or ECON1203.

For ECON1202, the substitute courses are: MATH1031 or MATH1131 or MATH1141.

For ECON1203, the substitute courses are: MATH 1041 or MATH1231 or MATH1241.

The ECON courses are not substitutes for these MATH courses. No credit will be given if students also complete the ECON courses.

ECON1203 may be substituted by PSYC2001 for those students who also do a major in Psychology.

The courses ECON1202 and ECON1203 can only count towards the BEc component of the degree.

Students have the option of counting the MATH courses towards the BSc and doing additional electives offered by the School of Economics OR counting the MATH courses towards the BEc and doing additional electives offered by UNSW Science.
