NOTES	<p><b>*MFAC1501 Foundations</b> An integrated seven-week experience for new students which requires you to work independently and in teams, exploring the fundamentals of cell biology, the structure of the human body, and a range of professional issues pertinent to medical practice. Students must pass MFAC1501 to progress to other courses within the BMedMD program. Further, students who do not pass MFAC1501 may need to go on Program Leave until the following year when the course is offered again. These students will adhere to the following year's program plan &amp; <a href="#">Handbook</a>.</p> <p><b>#General Education Requirements</b> BMedMD students are required to complete 12 units of credit (UOC) of General Education courses (typically 2 x 6UOC courses). It is recommended that students complete their General Education courses before entering Year 4 of the program. Students should make use of the Summer session to complete General Education requirements. Students wishing to undertake General Education courses outside of Summer session must submit an <a href="#">"Overload Studies" request</a> which requires a WAM <math>\geq 80</math> and approval from the Phase Convenor.</p>
