August

Keep those steps going, we are almost there! Read how close we are to the leaders in the Global Challenge Update. Also check out the great support for Plastic Free July in the update.

This month's issue is also jammed packed with information including reporting issues, information sheets, recycling polystyrene a microorganism classification app and another great UniSuper presentation. See below for registrations.

Reporting Facilities Related Issues

When you are at UNSW whether it be as student, staff or guest, be ever on the lookout for hazards. If you see something that you feel could cause an incident, report it. You can report a hazard or incident at the Health & Safety page or click the Health Safety & Env tile on your Manage My Profile page in the new look myUNSW. If you are the person managing the Hazard/Incident, please make sure the box is ticked that states 'Tick box if action required by Estate Management'.

If you identify a Facilities - Related issue, please report this directly to UNSW Estate Management, this includes issues relating to:

- Lighting Issues

Although there may be a Health or Safety aspect to these, it will be more efficient to report directly to Estate Management,

depression. A 2017 study found that Facebook use results in a reduction in self - reported physical health, mental health and life satisfaction. Former Facebook VP Chamath Palihapi says "The short - term, dopamine - driven feedback loops that we have created are destroying how society works: no civil discourse, no cooperation, misinformation, mistruth." So, from Monday 13th August to Friday 17th August, take a break. Interact with your friends in the real world and stay in the moment. Email us the following week to let us know how it worked (or didn't) for you.

Worksafe Qld has a [Young Workers webpage](#) that provides some great information including a [Young Worker Safety Toolkit](#).
